October 1, 2016

To all our Customers and Vendors,

We have exciting news to share with you! We would like to announce TiddTech Inc., a division of Spooner Machine, has acquired TiddTech Snow Grooming Equipment. Since 2010, we have worked closely with Spooner Machine as our outsource fabricator to manufacture and ship our groomers. During that time, we have witnessed their commitment to our product quality and dedication to their customers. With that in mind, we feel incredibly confident that “our baby” is moving into good hands and will continue our tradition of the finest lightweight snow grooming implements on the planet. We are especially enthusiastic that the capacity and staff that Spooner Machine has will enable TiddTech to grow in new directions.

Both of us have thoroughly enjoyed the privilege of serving you since we first started working at TiddTech in 2003. We feel so fortunate to have had the opportunity to meet so many wonderful people and although we won't be the ones continuing to answer the phones and responding to your emails, please know that we will continue our relationship as consultants and we will be there to support TiddTech, Inc. and the team as they take over the reins.

Happy Trails to you all!

Maire Sullivan and Mike Mason
